Food Rescue Pounds

## About Harvest of Blessing:

We are a food and clothing bank like no other! What makes us so different you might ask? To start- Jural Toby was called by the Lord to a ministry of compassion without judgement for families who have been turned away by others and need a little help now to get back on their feet. Harvest of Blessing steps up and says let us help you so that you will be able to help yourself again. We are here to serve all of York County and strive to grow so we can help the surrounding counties as well. Our main priority- that we stomp out hunger and give people hope in a brighter future.
